Dear

Stephen

To say we've been through an interesting and challenging time is to say the least an understatement.

With this in mind I wanted to send you and your colleagues a personal letter of thanks. I am sure that there have been times when you've considered whether it is sensible to continue working with us - I am glad you stayed!

Despite the difficulties, you have shown remarkable energy, enthusiasm and determination to win. With this spirit we have managed to keep our vendors and customers on our side and loyal.

We now have a truly remarkable opportunity to show the world that we have always been the best and we just got better. We have the best products, the best customers and the best people to help us do this.

I ask you to join me and the management team in making our dream real and recreating the truly unique Azlan spirit.

To success!

Kind regards

Richard
