Dear Stephen,

"NetWare 4.1 and Windows NT Server"
Conference at Royal Aeronautical Society,
March 26, 1996

I am writing to thank you very much indeed for your contribution to this conference; the complimentary remarks we received showed that delegates thought the conference was of very high quality and that they were seriously interested in the topic.

Comments received included "Excellent coverage of an important topic...", "Good to hear IT Managers views - they have different reasons for choosing technology", "Enjoyed the case-studies", "Very useful information..." and "Real-world topics and real-world discussions; purveyors of vapourware and half-products beware!", for which special thanks are due to you.

The survey form draw for the copy of "NetWare Mobile" very kindly donated by Novell was won by Victor Tobi of Gossett Consultants Ltd, 31 Farnley House, Union Rd, London SW8 2RT. If you have any comments or, perhaps, ideas for other conference topics, I hope you will let me know. Once again, very many thanks for your help, which we really do appreciate.

Yours sincerely,

Gordon Condруп
Conference Organiser
